

FORMAT OF FACULTY INITIATIVES ON TEACHING AND LEARNING:

Subject: Principles of Management

Batch: 2019-2021

Semester: I semester

1. Statement of Goal:

A) To make students understand theory + practical and how management principles are applied in organization

2. Appropriate Methods Used:

1. The students were asked to make a group (5 members in group) and select a organization of their choice to understand management functions by interacting with the managers.

3. Significance of Initiation on Results:

Some students were able to present how different management functions are applied in the organization. They learnt how to write a report based on the information collected.

4. Effective Presentation:

All the students were asked to speak on their report regarding practical exposure they got when visited industry in the class .it made students understand theory + practical.

5. Assessment:

Assessment is done based on the hard copy of report submitted and one to one interaction with students regarding how best student is able to connect theory with practical.

6. Evaluation:

Evaluation is done based on the above assessment.
